

## **Eskandari Bicycle Co Mission Statement**

Our customers choose one of our durable, reliable and stylish electric bicycles to suit their needs, whether they are riding to and from work, riding for their work, or riding to get away from their work. They choose us as we design and build our quality electric bicycles ourselves, mindful and respectful of both their needs and the Australian conditions in which they ride. Our customers' trust is everything to us - we are grateful and mindful of this trust when we innovate, when we build and when we work with our distribution partners to be the best choice for e-bike riders in the markets we serve.
